

Emerald Coast Rider

April 6, 2009 Launch Date for Electronic Fareboxes

HOW TO USE ELECTRONIC FAREBOXES

BEFORE BOARDING: Have your ECR Reduced Fare ID Card available, if applicable. Have unfolded bills, coins or pass ready. Wait for bus driver's instruction before using farebox.

CASH: Drop coins **one at a time** in the Coin Insertion Cup (A). Feed flat, unfolded bills (in any orientation) into the Bill Insertion Slot (B). The farebox will "beep" when correct fare has been accepted.

TRANSFERS: Transfers are valid for 2 hours after purchase. If you require a transfer first pay the base fare, request a transfer from the bus driver. When prompted by the driver, insert \$.25 into the coin cup (A). Transfer card will be issued (C). The expiration time will be printed on the back of the transfer ticket. If the 2 hour period expires, you must pay base fare again. Please do not purchase a transfer if it will not be redeemed within (2) hours. Transfers cannot be used as a return trip for the same route.

31-DAY PASS: Pass must be validated for first use, insert pass in slot (C). The farebox will print the first-used date on the back of your pass. The 31-Day Pass is valid for 31 consecutive calendar days. After the pass has been validated, the farebox will "beep" and return your pass. On your next trip, slide 31-day pass through swipe slot (D). The farebox will "beep" when your pass has been accepted.

CHANGE CARDS: Electronic fare boxes and bus operators do not make change. If change is owed after payment of bus fare, the farebox will issue a change card, not cash. Change cards are redeemable for bus fare only, not cash. Change cards will not be issued for less than 10¢.
